Waddy

FOR SUPERMARKETS & GROCERS

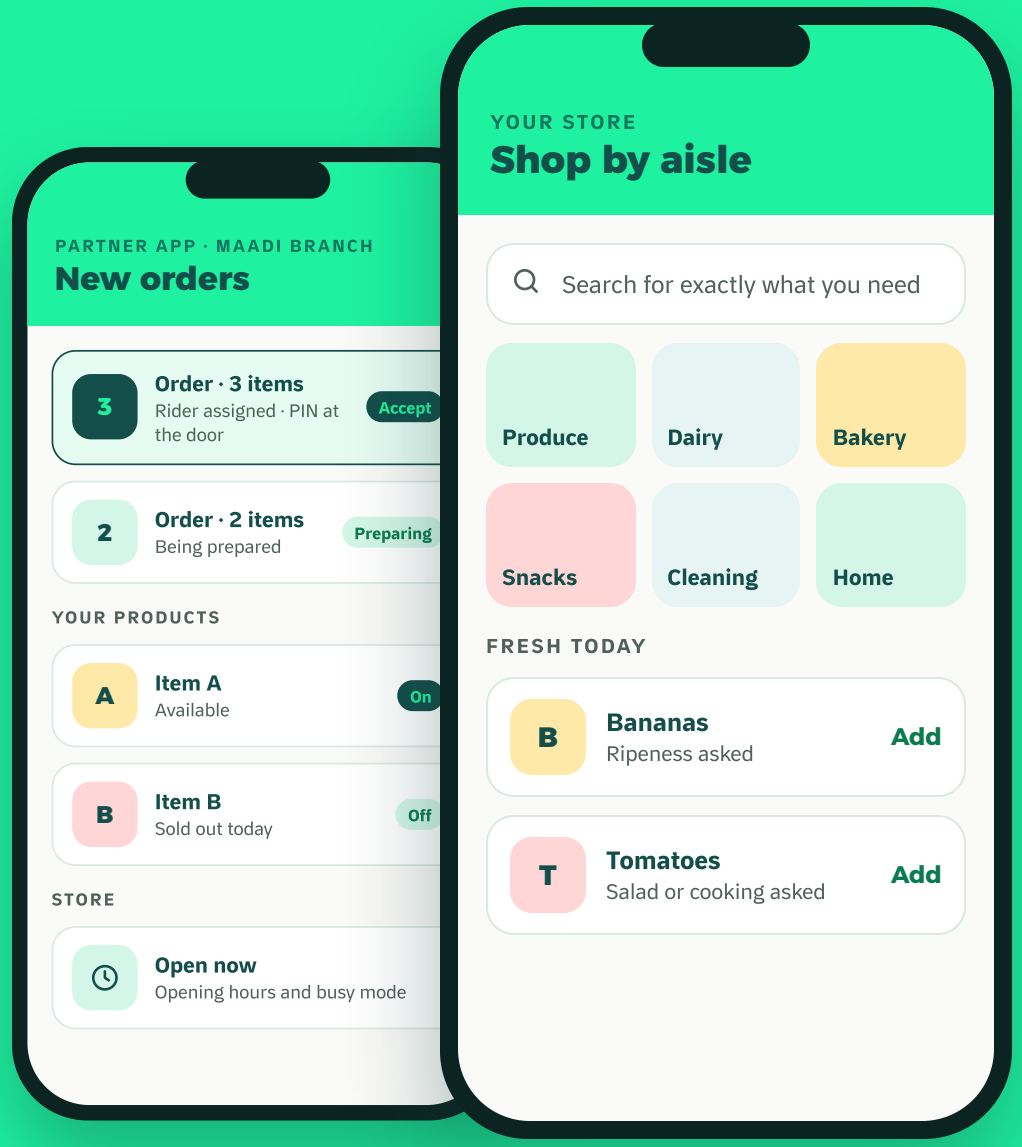

The local growth partner

Grow Your Store Beyond the Counter.

Meet Waddy, the neighborhood delivery and growth platform that lets your fresh aisle sell online the way it sells in store.

Ripeness choice | Salad or cooking | Local advertising | Our own riders

Founding partners | No setup fee | Reduced launch commission | Keep your other apps

MADE IN MAADI · BUILT AROUND YOU

WHAT IS WADDY

A Delivery Platform Built Only for Maadi.

Customers open Waddy and see restaurants, cafés, grocery and pet shops from their own streets. We run the app, the marketing and the riders.

WHY WADDY

1. **Maadi first**
   Customers see businesses near them, not the whole city.
2. **We promote your branch**
   Our advertising is for Maadi, and for the branch that serves Maadi.
3. **Riders who only work four areas**
   Degla, Sarayat, Nerco and Corniche. Short, familiar routes mean faster deliveries.

Big apps list your business. Waddy helps your neighborhood discover it.

THE WADDY DIFFERENCE

Big Marketplace Thinking vs. Neighborhood-First Growth.

A citywide list wasn't built for a business whose customers live a few streets away.

	Citywide marketplace model	Waddy: neighborhood-first
Discovery	Customers browse a catalogue that spans many areas.	Customers browse businesses relevant to where they live.
Promotion	Spend goes on the platform and big brands across the whole city.	Waddy advertises in Maadi only.
Local brand	Limited room to build a distinct neighborhood identity.	Partners can become familiar names in their own neighborhood.
Branches	Promotion is usually brand-level: it promotes the chain, not its Maadi branch.	Waddy promotes the Maadi branch to Maadi customers.
Delivery	Fleets cover the whole city.	Waddy's riders cover four areas: Degla, Sarayat, Nerco and Corniche.
Repeat orders	Loyalty belongs mostly to the marketplace as a whole.	Rewards, weekly quests and scratch cards are built around local habits.
Commission	What you pay on your current apps.	Compare what you pay today with what we offer.

This page compares two business models. It describes structural differences and is not a statement about any particular company.

WHERE THE EXTRA ORDERS COME FROM

One Neighborhood. Five Ways to Grow.

1
DISCOVER
New Maadi customers find you in local discovery, the Top 10 and search that stays local.

PAGE 05

2
PROMOTE
Waddy-funded ads in Maadi, Partner Spotlight, and optional paid visibility.

PAGE 05

3
DELIVER
Our riders reach customers beyond walking distance. No rider team to run.

PAGE 06

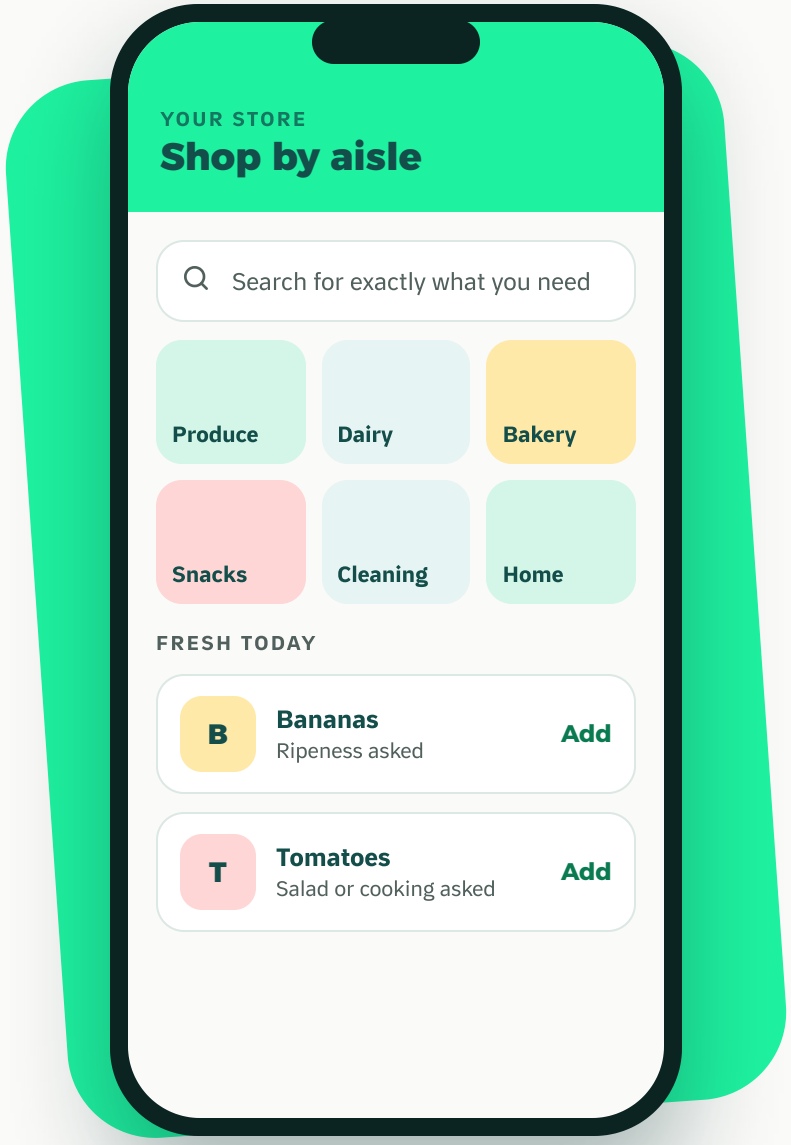

4
RETAIN
XP, weekly quests, scratch cards and one-tap reorder bring customers back.

ASK FOR A DEMO

5
GROW
The Partner App runs your orders, products, prices and opening hours.

ASK FOR A DEMO

Waddy is non-exclusive, so these are orders on top of the ones you already get. How many depends on your business; we will show you the real count at your 30-day review.

DISCOVER + PROMOTE

Found in Maadi. Promoted in Maadi.

Your store is laid out aisle by aisle, the way people already shop it, in front of the households around you.

A · Waddy-funded local ads

Instagram and Facebook campaigns targeted to Maadi.

FUNDED BY WADDY

B · Partner Spotlight

Selected partners are featured in Waddy's own content and social channels.

BY SELECTION

C · Optional paid visibility

Sponsored placements, always labelled, if you want extra reach.

OPTIONAL

You never have to buy ads to be listed. Ad concepts are proposals, not past campaigns; results vary and are not guaranteed.

DELIVER

We Deliver.
You Focus on Your Business.

Extend your reach without building and managing a rider team of your own.

Waddy's own riders
They only work Degla, Sarayat, Nerco and Corniche: short, familiar routes.

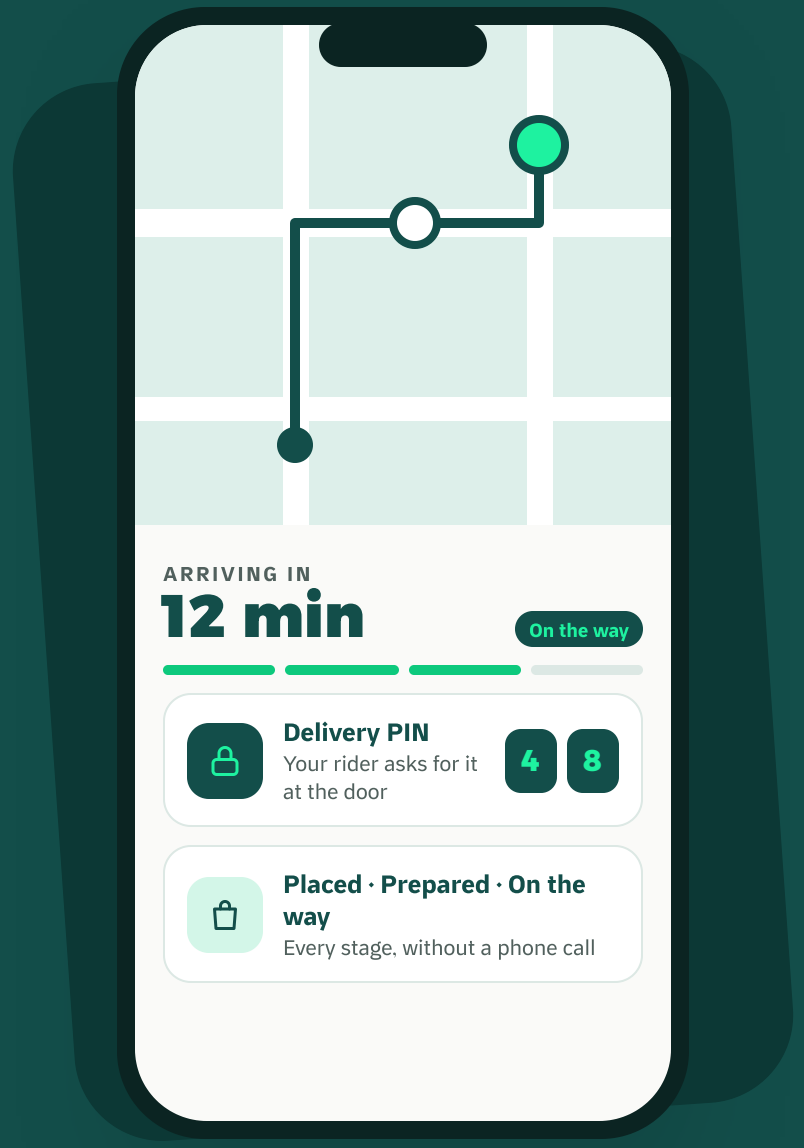

Live tracking for the customer
A live map and ETA, so they watch the order instead of calling you.

A delivery PIN at the door
The rider asks for it, so the order reaches the right person.

Cash handled for you
Riders collect cash on delivery; it is included in your payout (page 07).

WHAT IT MEANS FOR YOU

Fewer phone calls, fewer disputes, and a strong last impression.

THE OFFER

What It Costs. How to Start Risk-Free.

WHAT IT COSTS

None

Setup fee

Commission

One rate when Waddy delivers, another when you deliver yourself. Agreed with you before you start.

Monthly fee

None

Advertising

Optional, never required

AGREED IN WRITING

Before

you start, not after

Delivery fee

Agreed with you, in writing

Settlement

Agreed with you, in writing. Cash orders are collected by our riders and included in your payout

Refunds and exit

Agreed with you, in writing

START RISK-FREE

- **No setup fee**
  Joining, onboarding, catalogue and photos cost nothing.
- **Reduced launch commission**
  A lower rate for founding partners while you get started.
- **Stay on your other apps**
  Waddy adds Maadi customers. It doesn't replace anyone.
- **30-day review**
  After 30 days we show you every order that came through Waddy, and you decide.

We're new, so there are no case studies yet. Founding partners get these terms agreed in writing.

JOIN WADDY

Let's Grow Maadi Together.

Send us a WhatsApp message. Then:

DAYS 1–14
Set up
Catalogue, photos and training. Free.

DAYS 15–30
Launch
Live in Maadi from day one.

DAY 30
30-day review
Every order that came through Waddy. You decide.

DAYS 31–90
Build
Offers and partner promotion, planned together.

Your brand. Your local branch. Your neighborhood. Your growth partner.

WEB waddyapp.com

BUILT FOR GROCERY · ONLY ON WADDY

Ripe Today, or Ripe Thursday. Salad, or Sauce.

Nobody trusts a stranger to pick their tomatoes. Waddy asks the question a good greengrocer asks across the counter, before the item reaches the cart.

Ripeness, on fruit
Ready to eat today, or ripe in 2–3 days.

Use it for, on vegetables
For salad: firm and crisp. For cooking: riper and softer.

Only where it is needed
Fruit and vegetables ask. Milk and rice ask nothing, so shopping stays fast.

WHAT IT MEANS FOR YOU

Customers trust you with fresh produce online, and fresh is what fills a weekly basket.

BUILT FOR GROCERY · ON YOUR SIDE OF THE COUNTER

One Question for Them. Zero Guessing for You.

The customer's answer travels with the item, all the way to whoever picks the order in your store.

Written on the order line

"Bananas · Ripe in 2–3 days." The instruction sits next to the item it belongs to.

Never touches price or stock

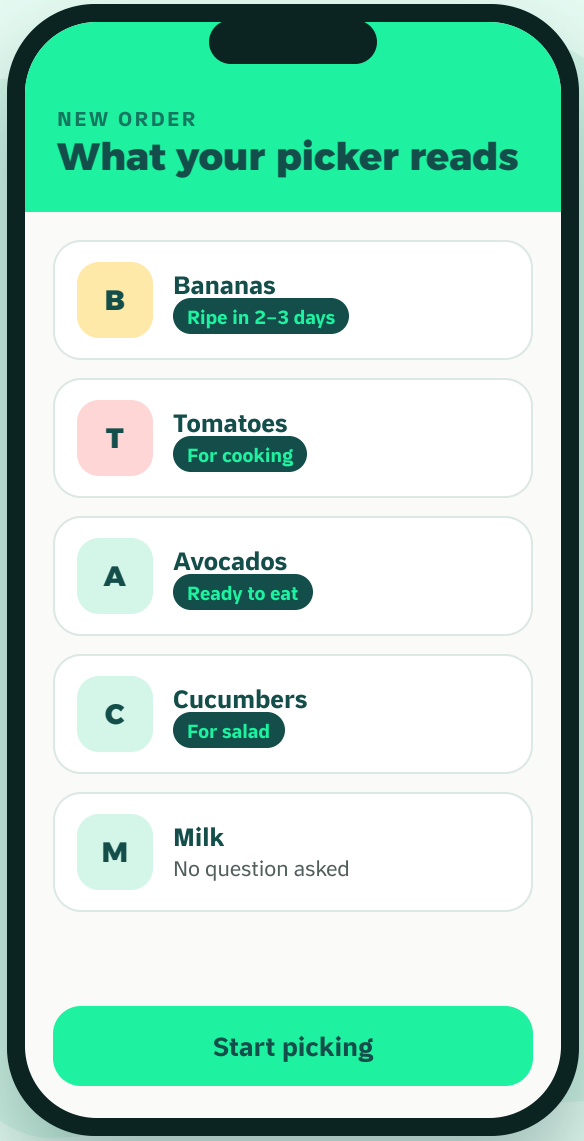

It is a picking note, not a new product. Nothing extra to manage in your catalogue.

Sell the whole crate

Softer produce goes to the cooks who want it instead of staying on the shelf.

WHAT IT MEANS FOR YOU

Fewer complaints and refunds for you, and less waste on your shelf.

FOR BRANDS WITH MORE THAN ONE BRANCH

Your Maadi Branch Gets Priority.

One brand. Multiple branches. Your neighborhood comes first. Whether you have one location or twenty, Waddy is built around the branch that serves the customer's neighborhood. Big apps tend to promote the brand, not your Maadi branch.

1. **A brand with several branches**
   Maadi, New Cairo, Heliopolis, Zamalek, Sheikh Zayed.
2. **The customer opens Waddy in Maadi**
   Waddy shows the marketplace for that neighborhood.
3. **The Maadi branch is the one they see**
   A dedicated branch presence, with local promotions.
4. **The order goes to the right branch**
   Prepared and delivered by the branch that serves them.

Priority means local-branch relevance and designated visibility for Maadi customers. It is not a guaranteed ranking position. Other branches join as Waddy opens in their areas.
