Waddy FOR RESTAURANTS & CAFÉS

Maadi is hungry.

Be the first name it sees.

Waddy puts your kitchen in front of the neighborhood that already loves it, then gives them reasons to order again.

Top 10 Maadi | Waddy Spots | Live tracking

WHO WE ARE

In Egypt, “waddy” is what you say when something’s great.

We built a delivery app that has to live up to its own name. One neighborhood, done properly: Maadi’s food, groceries and pet supplies in a single app, brought to the door by riders customers can watch arrive.

Local first

We start with Maadi and the places Maadi already loves. You are a neighbour here, not a row in a national database.

One app, three aisles

Food, groceries and pets live side by side. Someone who opens Waddy for dinner sees your store on the way.

The mint one

Every other delivery app is orange or red. Waddy is mint, so your customers know where they found you.

THE PROBLEM

On most apps, your restaurant is one row in an endless list.

01

Good food, buried

A customer scrolling hundreds of places across the whole city never reaches the one around the corner.

02

Discounting is the only lever

When every listing looks the same, the cheapest one wins. That is a race you pay for.

03

One order, then silence

Someone tries you once and nothing brings them back. You start from zero every night.

Waddy is built the other way round: **a smaller stage, a louder spotlight.**

GET SEEN

A stage the size of your neighborhood.

Waddy opens on Maadi, not on the whole city. The first thing a hungry customer sees is the places near them.

Top 10 Maadi, ranked

A ranked list of the neighborhood's favorites, at the top of the food home.

Found by cuisine

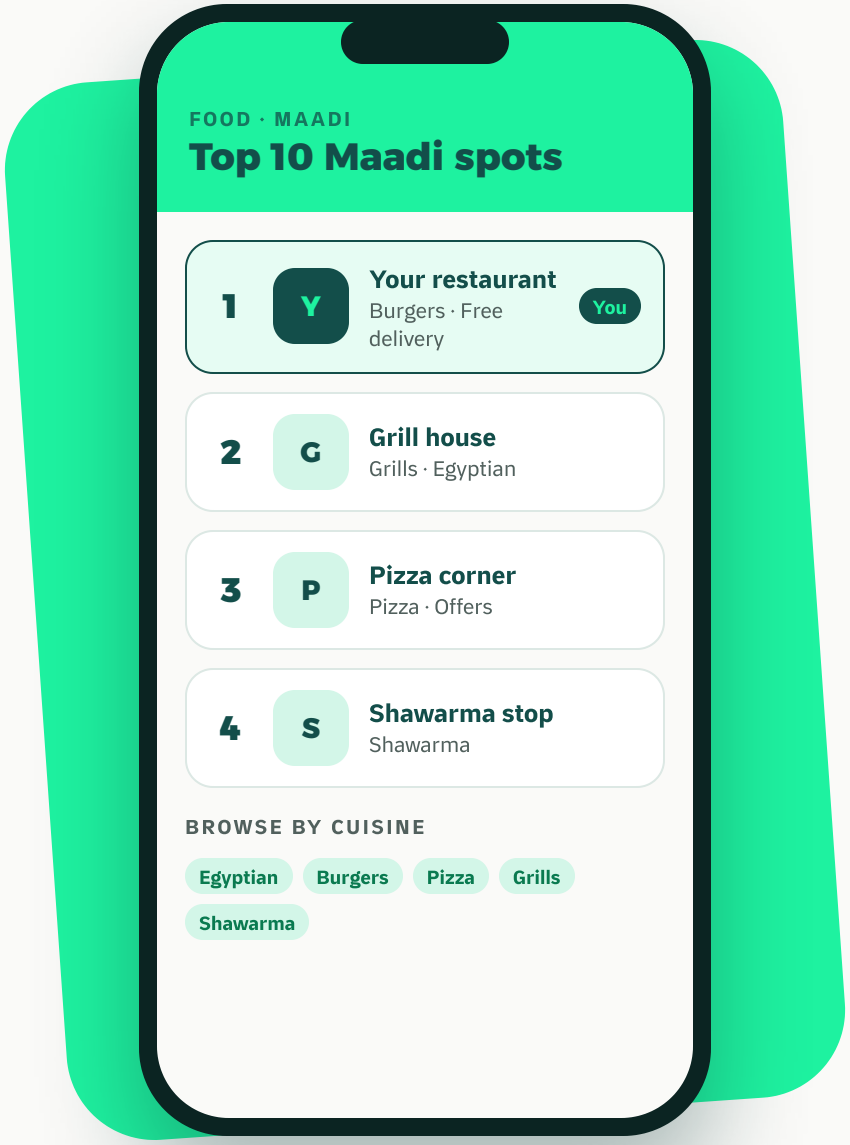

Egyptian, burgers, pizza, grills, shawarma and more. Customers land on you by craving.

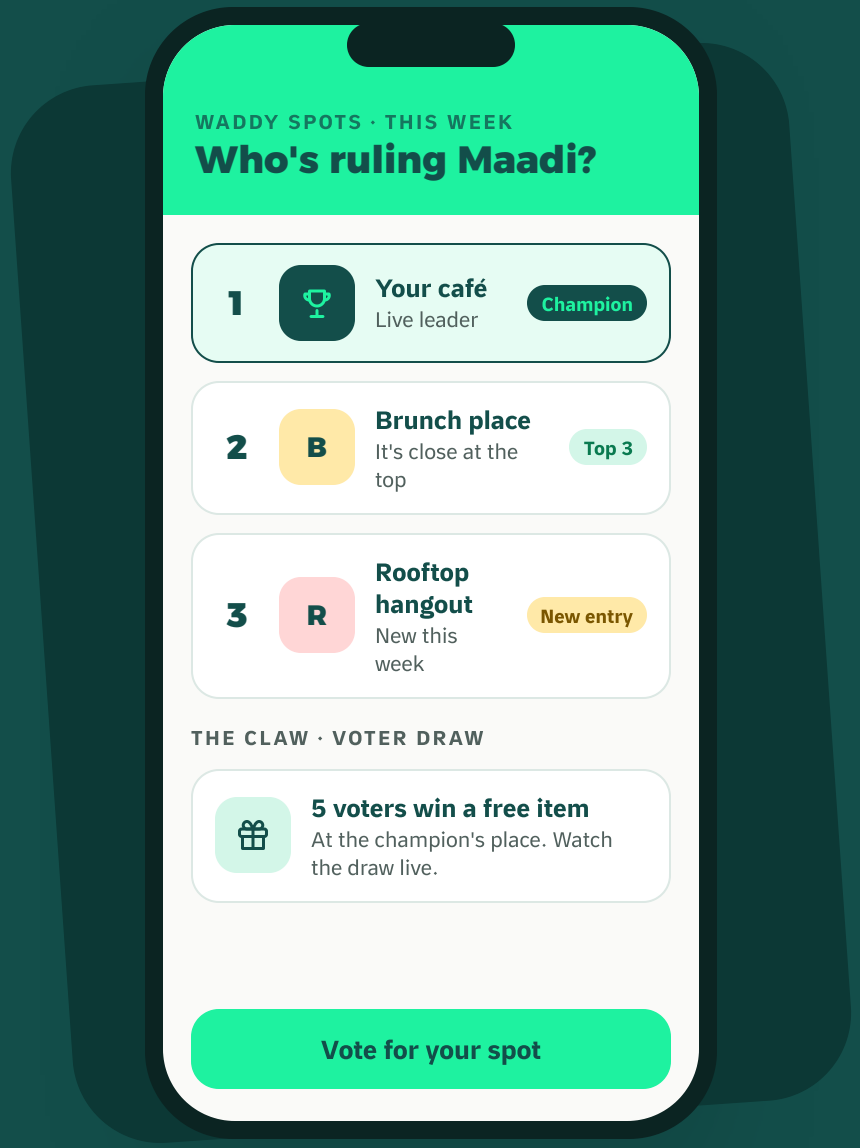

Offers shown up front

Your offers and free delivery show on your listing before anyone opens the menu.

WHAT IT DOES FOR YOU

You compete with the street, not with the city. That is a list you can lead.

ONLY ON WADDY · SPOTS

Every week, Maadi votes. Then it shows up.

Waddy Spots is a weekly vote for the neighborhood's favorite café, restaurant or hangout. Your regulars do your marketing.

One vote per person, every week
A fair, live leaderboard your customers want to move.

A champion is crowned
The spot with the most votes takes the week, in front of everyone using the app.

Five voters win a free item at your place
Picked at random in a live draw. Waddy runs the draw and winners come through your door.

WHAT IT DOES FOR YOU

Free word of mouth, a title worth sharing, and new faces walking in to claim a prize.

GET CHOSEN

Your menu, exactly how they like it.

An order that arrives right is an order that gets repeated. Waddy makes it easy to ask for it properly the first time.

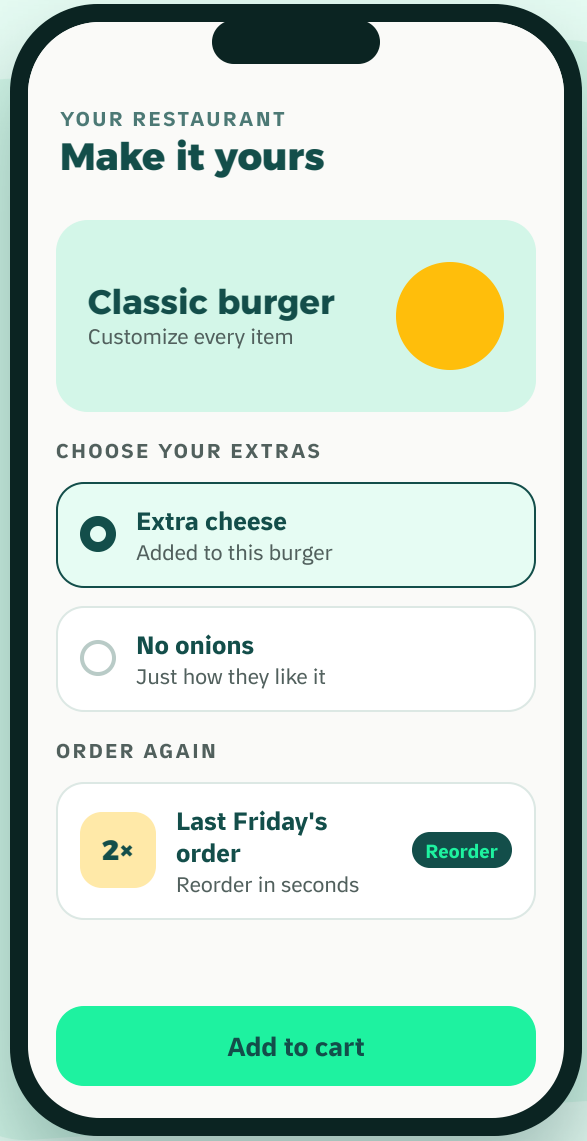

Every item customizable
Extras, removals and choices are set by the customer, not guessed by your kitchen.

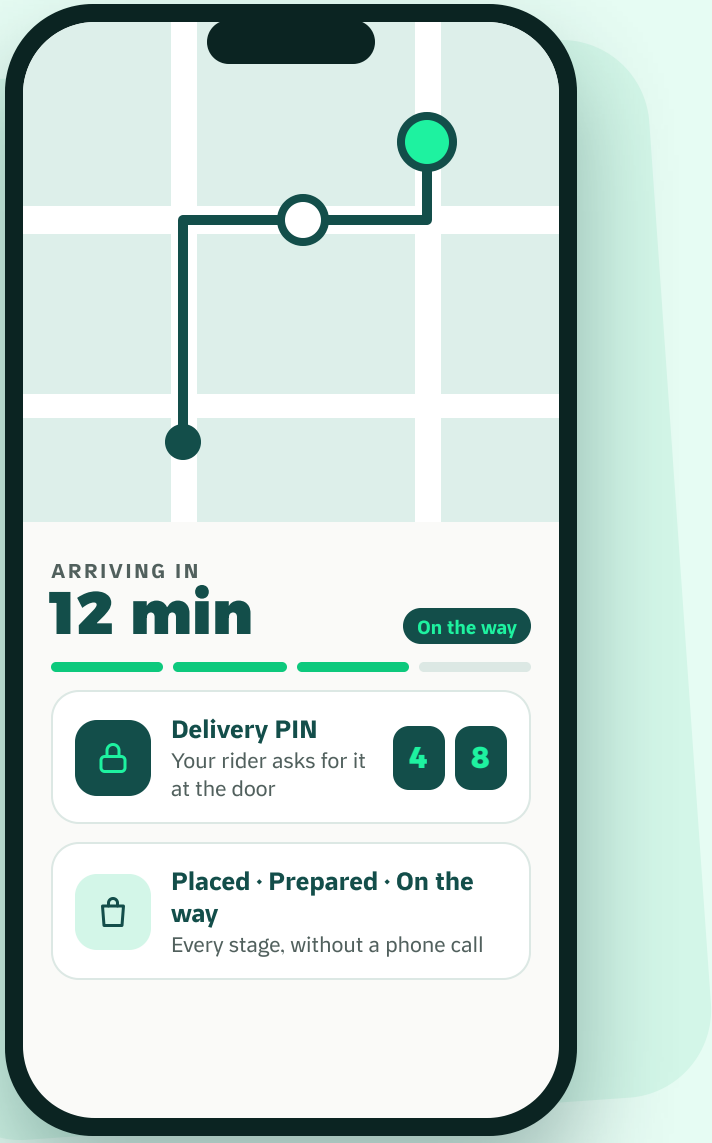

Reorder in seconds
Last Friday's order is one tap away. Habits form around the places that make it easy.

Clear before checkout
Prices, offers and delivery are visible before they commit. No surprises, no abandoned carts.

WHAT IT DOES FOR YOU

Fewer wrong orders, fewer refunds, and regulars who order the same thing again and again.

DELIVERY THEY CAN TRUST

No more “where’s my order?”

Your work ends well when the order arrives well. Waddy shows the customer the whole journey from your counter to their door.

A live map, a live ETA

Customers watch their rider cross Maadi instead of calling your shop to ask.

Every stage, shown

Placed, prepared, on the way. They know what is happening before they wonder.

A delivery PIN at the door

The rider asks for it, so the order reaches the right customer and only them.

WHAT IT DOES FOR YOU

Fewer phone calls, fewer disputes, and a last impression as good as your first.

CUSTOMERS WHO COME BACK

The first order is luck. The tenth is design.

Waddy gives customers a reason to return that isn't a deeper discount from you.

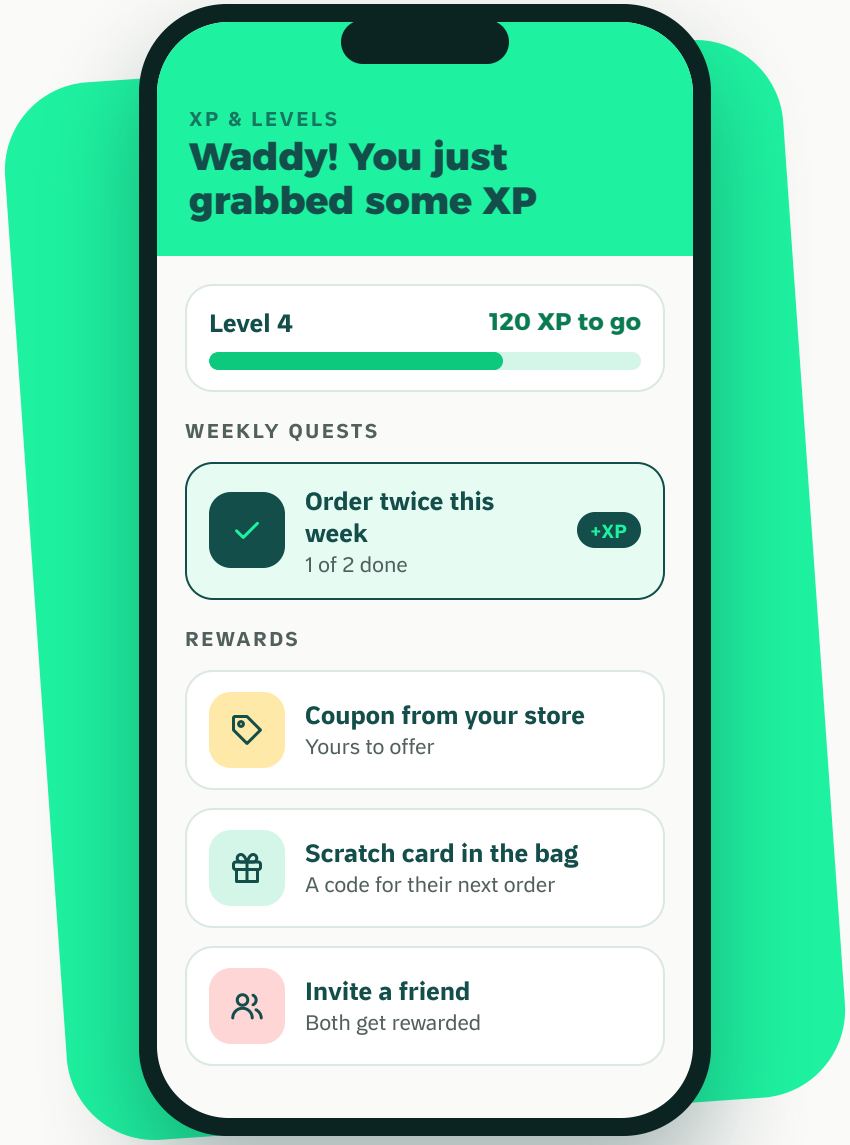

XP on every order
Customers level up as they order, with weekly quests that give them a reason to open Waddy again.

Coupons and offers from your store
Your deals appear on your store before the customer orders, not buried in a banner.

A scratch card in the bag
A printed code in the delivery turns one order into a reason for the next.

WHAT IT DOES FOR YOU

Repeat orders you didn't have to buy with a price cut.

HOW WADDY GROWS YOUR RESTAURANT

Three moves. One busier kitchen.

1

Get seen

Be in front of Maadi the moment it gets hungry.

- Free delivery badge

→

3

Get reordered

Turn tonight's customer into a weekly one.

- One-tap reorder
- XP & quests
- Scratch cards

GETTING STARTED

Let’s put your kitchen on the map.

1. **Tell us about your place**
   What you sell, where you are, when you’re open.
2. **We put your store on Waddy**
   Your items, your prices, your photos, set up with you.
3. **Go live in Maadi**
   Orders come to you. Riders take them to the door.
